

Growing Solutions Ltd

GS Zinc

Product

GS Zinc is designed for application to grass, lawns and turf.

GS Zinc helps to stimulate the plant to promote seedlings to grow.

Application Rates & Timing

Dilute 1 to 2litres of GS Zinc per Ha in a minimum 300litres of water.

For best results apply when turf is actively growing. During hot weather spray early morning or evening, mid-day sprays may not be as effective because of excessive moisture evaporation. Apply once a month all year round. It can be applied in all weather conditions except when there is frost or snow on the ground.

GS Zinc is compatible with all Growing Solutions products and can be tank mixed together.

Key Benefits

- Very quick and effective results.
- Promotes seedlings to push on into growth

Storage

GS Zinc should be stored out of direct sunlight and in a cool place, but not in frost.
